TO WHOM IT MAY CONCERN

We are proud to testify that **Mr.ahmed baha idris** worked at (Base Engineering Solutions Co.) as electrical engineer solves problems and tests equipments and design and implement the equipment and control logic that starts and stops motors, controls pressure, flow, temperature and coordinate meetings between project members and clients to develop ideas discuss progress and set goals

He has been working in (Base Engineering Solutions Co.) from the last of 2017 (October) to 2019 (September)

Hired as a trainee engineer for three months from October 2017 to December 2017, he moved up the ladder in his career with the help of his sound engineering skills, ability to solve problems, and efficient style of working. Ahmad was committed to his duties and also coordinated well with other departments.

We wish he can harness all the opportunities coming his way and achieves greater heights in career.
